

### Step #3: Write a 500 Word Essay on a Chamber Topic

Upon successfully passing the application process, participants are required to write an essay demonstrating their knowledge of Chambers, a specific subject, and their experience.

The essay should be based on one of the core chamber management areas: management, planning and development, membership and communications, operations, or finance.

The FACP Certification Committee will review the essay for content as well as grammar. Two of the three committee members reviewing the essay must pass the candidate with a minimum 70% score.
